

# Initiatives on Palestine

## OVERVIEW & PURPOSE

Emgage Action has been actively advocating for Palestinian rights, highlighting a shift in Muslim American support for President Biden through influential polls, engaging in strategic dialogues with political leaders, and mobilising the community through voter outreach and public forums. Our efforts include direct engagement with figures like President Biden and Secretary of Education Miguel Cardona, advocating for resolutions such as the "Ceasefire in Gaza" and the Ceasefire Now Resolution, and collaborating with partners, including the Council on American-Islamic Relations.

Through town halls, solidarity prayers, and campaigns, we ensure the voices of the Muslim American community are heard. By organising voter outreach events, policy advocacy, and media appearances, we highlight the need for a ceasefire, address rising Islamophobia, and advocate for balanced public discourse. This comprehensive approach underscores our commitment to peace, justice, and the self-determination of Palestinians, showcasing the power of community mobilisation in shaping U.S. foreign policy and public opinion. Below is an overview of all the actions that Emgage Action's national and State Chapters have taken in regards to the Palestine conflict.
